

CSPO Perspectives

“High Technology Military Dominance: The Opiate of Modern Empire” by Brad Allenby is now available on the CSPO website at <http://www.cspo.org/home/perspectives/>. Brad is a Professor in the Department of Civil and Environmental Engineering and the College of Law at Arizona State University.

Please visit our library for previous perspectives at www.cspo.org/ourlibrary/perspectives/.

Forbidding Science: Balancing Freedom, Security, Innovation, and Precaution

This CSPO co-sponsored conference, January 12-13, 2006 in Tempe, will explore whether and how restrictions on scientific research should be imposed. For more information, see <http://www.law.asu.edu/forbiddingscience/>

First World Forum on Science and Civilization: Tomorrow's People: The Challenges of Technologies for Life Extension and Enhancement

This CSPO co-sponsored conference, March 14-17, 2006 in Oxford, UK, will take a close look at what some characterize as the next stage of evolution: conscious efforts by human beings to reshape their inherited physical, cognitive and emotional identities by extending lifespan and enhancing human capacities. It will examine the range of technologies offering lives that purport to be longer, stronger, smarter and happier. For more information, see <http://www.martinstitute.ox.ac.uk/JMI/Forum2006/>.

A More Social Science

Daniel Sarewitz wants researchers to serve society better by looking for beneficial results – read more of this profile of CSPO Director Dan Sarewitz from *The Chronicle of Higher Education* at http://www.cspo.org/home/newatcspo/sarewitz_chronicle.htm.

Positions with CSPO and CNS-ASU

CSPO seeks to fill one or more open rank faculty positions in the general field of science, technology, and society, available for August 2006. For more information, see <http://www.cspo.org/home/jobs/faculty%202005.htm>.

The Center for Nanotechnology in Society at Arizona State University (CNS-ASU) has opportunities for graduate students and post-doctoral research associates – including one specifically engaged with projects assessing and valuing public and social impacts of nanotechnology. For more information, see <http://www.cspo.org/home/jobs/index.htm>.
